COMMUNITY CHEST NEWS

NEW CASTLE, PA., SATURDAY, OCTOBER 20, 1945.

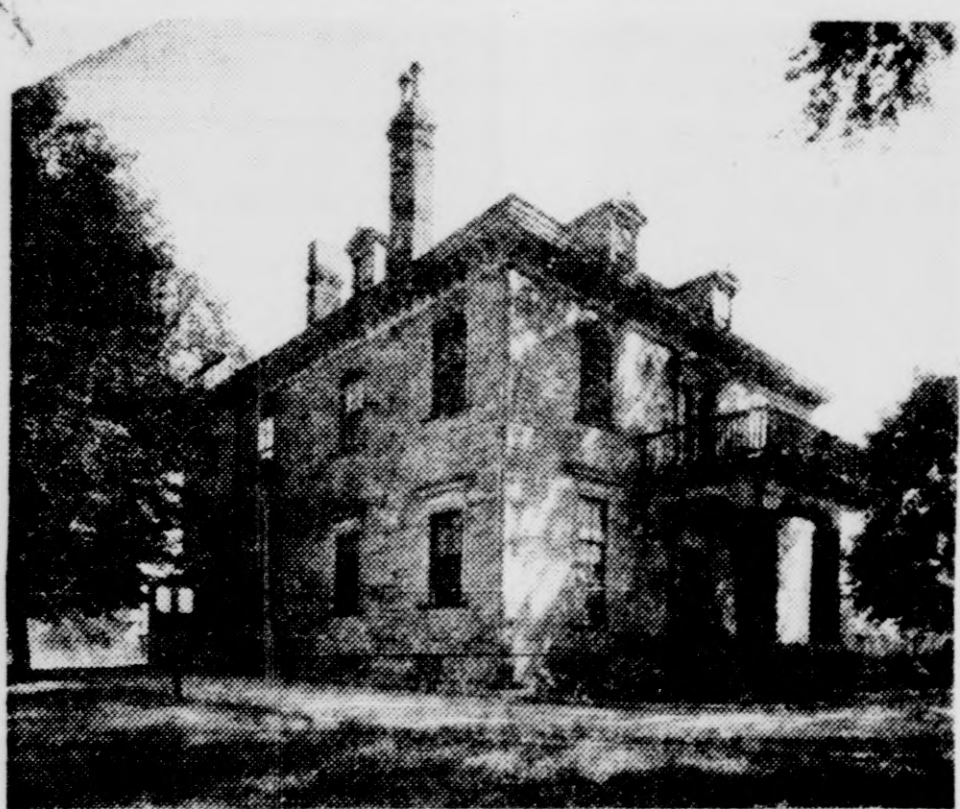

Give to the Community Chest and National War Relief Fund

THE CHEST DRIVE "RED FEATHER" ARMY OF VOLUNTEER WORKERS WILL START TUESDAY TO PUSH THE 1945 CAMPAIGN GOAL OVER THE TOP.

Red Feathers will be seen in the windows of hundreds of New Castle and Lawrence County homes, on thousands of lapels, and in plants, stores and schools, as Red Feather days are ushered in by the Community Chest and War Relief Fund's Victory Campaign starting Tuesday, October 23rd. Give generously—for community peace-time services, for returning veterans and those others for whom the war will not be over until the last service flag is down—for allied millions of the war's homeless and hungry—wear your "Red Feather" proudly!

Here In Detail, Are Some Of The Needs For Finances This Year:

Margaret Henry Childrens Home

Services for children—are only one phase of the welfare program of your Community Chest and National War Relief Fund. Equally important are the youth agencies, which include the Y. M. C. A.'s, Y. W. C. A.'s, Boy Scouts and Girl Scouts. Then there are agencies for care of needy service men's families, care for needy transients, as well as a wide range of other specialized services.

President Truman Says:

We have won the military fight, but are virtually just beginning the fight on famine, pestilence, and general distress. And I say to you, with full knowledge of everything UNRRA can do, and everything that can be done by other instrumentalities financed by public funds, that the private agencies of the National War Fund have a special task to do that is indispensable and unique.

What these agencies have done, and can do, is important out of all proportion to the relatively small funds involved. In no other way can the American people themselves express so clearly their intelligent sympathy and active concern, and their determination that justice and mercy shall prevail in this world, with the help of every good man and woman, and with the blessing of God.

May I, therefore, wish success to the National War Fund, and all its associated state and community war funds, in the plans for a united appeal to a united people.

How Much Should I Give to the Fund?

How much should I give to the Community and War Fund?

That, of course, depends upon my financial condition—how much I can afford to give. Or does it? Perhaps, instead, the needs which have to be met should measure my giving.

If every man and woman who is working or has an income gives a reasonable amount the campaign goal will easily be reached.

If every time a person sits down to a meal he or she should set aside one cent as his or her gift to the Community and War Fund the individual contribution would amount to \$11 per year. The equivalent of a loaf of bread or a quart of milk daily would mean about \$40.

One of the Most Critical Years We Have Ever Faced—Matthews

"This is one of the most critical years which we as a community or a nation have faced in many years. It is easy in the after-war confusion resulting from the reconstruction not only of our economic and business lives, but also in the changes affecting homes and families of many of us, to lose sight of the everyday institutions which supply the health and welfare facilities of the community.

"Yet they must be supported if they are to continue to exist. And the voluntary support which they receive is that part which permits them to open their doors without discrimination among those who can pay in full, pay in part or not at all, for services received—none is self-supporting, and if they were, proportionately higher memberships and fees would have to be charged the limited numbers who could use them.

Don't turn your
back on us now!

Do you know what it means to be HUNGRY?

Refugee children do. They know real hunger, bitter, mauling, day-after-day hunger. The dollars you give to the National War Fund will help provide warm soup and good bread for liberated allied peoples.

Can you know a child's UNHAPPINESS?

Neglected children, "war babies," youngsters in trouble... can you put yourself in their places? Can you feel in your heart the tragedy of an unhappy childhood? Give! Give all you can to the fund that brings good care and wholesome relaxation to war's youngest victims—our own American children.

Ever been HOMELESS?

Families of brave people—friends who fought on our side—are wandering aimlessly today. Going home? They have no homes! Member agencies of the National War Fund aid thousands of the homeless ones to reach new homes, in new lands of promise.

Have you ever been really LONESOME?

Can YOU feel the bleak, hard loneliness a soldier stationed overseas must feel from the war fronts? Yes, YOU! If you can, you'll give generously to the Community War Fund that brings games and entertainment to "forgotten" posts far duty.

Can you imagine spending months in a HOSPITAL ROOM?

Thousands of soldiers have to live it, the cruel loneliness, the awful boredom. But just outside the hospital grounds there is a bright, cheerful U.S.O. club... supported by dollars you give to the Community War Fund. Yes, YOUR dollars.

ATTENTION!

Mission Worker To Tell Of Nazi Party

For ten years prior to the outbreak of war, Rev. G. Kinderman did missionary work in Eastern Europe, using the Free City of Danzig as his headquarters. He saw the Nazi Party rise in power and he knows by first-hand experience what it means to live under their domination.

He will relate his experiences at both the 10:45 o'clock morning and 7:30 o'clock evening services of the First Pentecostal church next Sunday. He is returning to Europe shortly under appointment of the National Association of Evangelicals as a distributor of clothing and other essentials for the victims of those war torn lands.

Filipinos Pay Tribute To U. S.

WASHINGTON, Oct. 20.—(INS)—President Sergio Osmeña of the Philippines proclaimed Oct. 20, the anniversary of the American landings on Leyte, as a Philippine national holiday.

It is a general absurdity to have a civil agency like the UNRRA distributing hundreds of millions in European relief and rehabilitation while we have them an Army capable, through its leadership and its pack and file, of handling the situation far more efficiently and economically than a political civilian agency.

Under Sam so far has borne his role of Atlas without serious complaining. But when the load begins to bend its back, too far there is ample cause for inquiry and change of procedure.

"THEY FINISHED THEIR JOB— LET'S FINISH OURS"

The Women of New Castle have done an outstanding job in helping to put Lawrence County over the top in all seven War Loans.

Now, we come to the last—The VICTORY LOAN—and we are again calling on the women to put it over the top and thereby maintain the high standing of Lawrence County.

PATRIOTIC WOMEN ARE NEEDED

The Women's Organizations are putting on an intensive drive during the week starting Oct. 29th and ending Nov. 3rd. We need help as shown below—only a few hours work will be necessary—BUT IT IS NECESSARY. Uncle Sam needs money to:

- 2 Rehabilitate those who are maimed and blind.
- 3 Bring the millions, still over there, home.
- 4 Provide mustering out pay.

Harbor Garden Flower Display

October Show In Garden Center Is Colorful With Flowers Of Season

One of the loveliest of the monthly flower displays sponsored by the Lawrence County Garden

Council is the one open today in the garden center in the basement of the public library. Harbor Garden club is the sponsor of this month's show.

It includes bouquets of chrysanthemums and other fall flowers, roses, winter bouquets of seed pods and feathery pinnas grass, and among the displays is a bouquet of roses from the Honor Rose Garden located across from Jameson Memorial hospital. In one container are pansies as large and bright and fresh-looking as if they had just been transplanted from the nursery.

Another effective and colorful arrangement is of chrysanthemums in shades of brown and red combined with branches of red-leaved barberry.

A number of garden clubs have exhibits in the show which are open to the public without charge.

Texas has a state flower—the bluebonnet—and an official state flower song—"bluebonnets" adopted by the legislature in 1933.

Varied Displays Of Hobbies Shown By Franklin Pupils

Many Collections In Student Display Are Of Unusual Value To Young Owners

Approximately 30 hobby displays were entered in the hobby show which was open for three days in one of the classrooms at Franklin Junior High school this week.

All of the displays showed interest in a particular field, and some of them involved a high degree of skill on the part of the young hobbyists. The collections ranged from scrapbooks to hand-carved wooden compacts such as the ones Dorothy Abbott had made, or to Edward Gilmore's anti-aircraft gun and army vehicles, or to Jacqueline Funkhouser's drawings.

Astronomical

Interested in astronomy, Robert Florida had on display a 50-inch home-made telescope complete with reflector diaphragm and color filter, and surrounded by an exhibit of pictures and literature on astronomy and by several different sorts of lenses.

Autographs of movie stars were exhibited by Margaret McClain, while other signatures were also shown by Jack McGaffie and Keith McCaslin. Among Keith's collection, which ranged from Gen. Chenault and Gen. "Monty" Montgomery to Chester Gould of Dick Tracy fame, is a picture of the flag rising on Iwo Jima photographed by Joe Rosenthal, the G. I. who took the picture.

Back from Wars

Jim Foster's collection of army insignia from four wars had a story for every piece. A major's leaf had been on the Burma road; a captain's bars had been in China; a warrant officer's insignia had been on the arm of a musician as he played before President Roosevelt and again before the King of England; a small "R" had been the insignia of a soldier in the Eighth Army in the Philippines during the Spanish-American war; and a medal had been pinned to the chest of a Civil War veteran.

Marching across the top of a table, a collection of 45 Chinese dolls form a wedding procession of

musicians with their various instruments, lantern bearers, the bride in her sedan chair, and the bride's escorts. The procession is part of a collection of over 100 dolls owned by Carlotta Mae Christoffer. Two other Chinese dolls are the Emperor Kuo and his wife of the Tsing dynasty.

Many Others, Too

Other entries were: Donna McBride, china animals; Angela Esposito, compacts; Barbara Eddy, large crocheted rugs; Janet McCollum, scrapbooks of poems; Mike Scalzo, scrapbook of Hungerford cartoons; Sam Santilipio, china animals and army insignia; Paul Martin, scrapbook of newspaper clippings about soldiers including articles about his brother, Pfc. Richard Martin, who was killed in action; Corinne Flaminio, dolls; Carolee McDermott, dolls; Joanne Armstrong, dolls; and Leda George, doll clothes. Paul Crichtlow exhibited stamps and 22 models of planes, while Robert Solomon showed models of vehicles from covered wagons to ducks and half-tracks. Stamps were exhibited by Myla Jean LaScala, Lois Bechler, Elaine Kalata, and James DeGregory.

James Hays had planes, Donald Joseph had paper planes, and Fred Hasson had a scrapbook of planes. One of the most fascinating of the collections was Philip Alperin's display of German knives and swords, including a fencing sword from the Kaiser's time, a hunting sword for killing the wild boar, a Polish dagger, and a collection of Nazi officers' knives and trench knives.

United Auto Workers

Make Demands Upon

General Motors Firm

DETROIT, Oct. 20.—(INS)—Walter Reuther, vice-president of the United Automobile Workers, announced today that the union "would call off its General Motors strike" if the firm could "prove that a 30 per cent pay increase would raise the prices of new cars."

However, the union official said "If the company fails to do this we will go ahead with our strike." A strike vote is scheduled for next Wednesday among 135,000 employees of the giant firm.

Reuther said he would take the union's case for a wage boost directly to the public. He declared he is prepared to prove the corporation could meet the union demand "and still return profits that would be considered excessive by usual business standards."

Man Is Injured

In Fall On Steps

John Huttunen, also known as Hutton, age 50, of 513 Whippoor street, was in the Jameson Memorial hospital today having sustained a fracture of the skull and a laceration above his left eye when he fell down 20 steps at The Casino building early today.

According to an inquiry conducted by Police Lieut. George S. Kennedy and Policemen Ralph A. Criswell witnesses corroborated the assertion of The Casino management that he had not been served any drinks in the establishment. An ambulance conveyed him to the hospital.

According to the management and patrons the man had entered the Casino, talked to various patrons then left the serving room.

They said he held onto the right banister when he started down the stairway, let go, and attempted to seize the left banister with his other hand. However, he failed to grasp the banister, fell 20 steps and was hurt. Police and an ambulance were called.

Japan Is Low On

Hospital Supplies

TOKYO, Oct. 20.—(INS)—The Japanese reported to occupation health authorities today that they have sufficient hospital space but are low on medical supplies, food and fuel.

Col. C. F. Sams, Allied public health officer, said the Jap report indicated Japan has more than 2,500 hospitals with a total bed capacity of 155,654.

These figures do not include hospital facilities in Nagasaki or the prefectures of Yamaguchi, Sava and Kumamoto.

All the hospitals show shortages of food, fuel and medical supplies. Some 37,000 physicians are now practicing in Japan.

Japan's railroads also are in fair condition despite Allied air raids. The Japanese government reported to Gen. MacArthur that Allied airmen damaged 12,358 passenger and freight cars and 891 locomotives.

Establish Polio Ward At Hospital

Special Treatment Being Given Victims Who Were Segregated At Jameson Memorial Hospital

With the cooperation of the Lawrence county branch of the National Foundation for Infantile Paralysis, Inc., the best treatment possible is being given patients afflicted with poliomyelitis at the Jameson Memorial hospital, Superintendent C. Robert Younquist stated today.

A special ward has been established in the rooms formerly occupied by Dr. Bissell on the first floor, and special nurses who are skilled in the Kenny treatment are on duty there.

At the present time there are three children and an adult, who is suspected of having the disease, who are undergoing treatment, while two children who were admitted for treatment at an earlier date have been discharged from treatment, and were able to walk out of the hospital, having been returned to health by the treatment received.

The Lawrence county branch of the foundation is purchasing a special heating tank to heat the hot pads which are applied to the affected parts under the Kenny treatment. Chairman William B. Hanna stated today which will facilitate treatment, and a pathologist is being brought from Pittsburgh today to help diagnose the case of the adult suspected of being afflicted with polio.

Seven-State Strike Of Glass Workers Looms Next Week

COLUMBUS, O., Oct. 20.—(INS)—A seven-state strike of 15,000 glass workers "can be expected by Monday," it was declared today by Lewis McCracken, secretary-treasurer of the Federation of Glass, Ceramic and Silica Workers of America.

The strike threat came shortly after breakdown of contract negotiations between glass company owners and members of the federation's wage committee.

The glass workers walked out last July in accordance with strike procedure set up by the Smith-Connally anti-strike bill. They returned to work when negotiations were resumed.

McCracken said the Pittsburgh Plate Glass Co. and the Libby-Owens-Ford company, with plants in Fox City, Pa., Creighton, Pa., Clarksburg, W. Va., Charleston, W. Va., Toledo, O., Mount Vernon, O., Ottawa, Ill., Crystal City, Mo., Henrietta, Okla., and Shreveport, La., would be affected.

McCracken said some of the workers might leave their jobs before Monday, and others later, "but here just isn't anything to do now except strike."

LONDON, Oct. 20.—(INS)—The London Daily Express today published unconfirmed reports that Grand Adm. Erich Raeder, former commander in chief of the German navy and one of the top Nazi war criminals, has been kidnaped from Russian hands.

A dispatch to the newspaper from Berlin said the allied indictments were not served on Raeder or Hans Fritzsche, Nazi propaganda chief, both of whom the report said were originally in Soviet custody.

The dispatch admitted there was considerable mystery and confusion regarding the kidnaping reports. One version, that Raeder was under house arrest in the British sector of Berlin, was said to have been officially denied.

NEW PASSENGER CAR TIRE

COMING SOON! NEW B. F. GOODRICH TIRE THAT OUTWEARS PREWAR TIRES

THIS isn't a guess. A new kind of tire has been developed, and tests show that it outwears prewar passenger car tires.

It is made of a new kind of synthetic rubber developed by B. F. Goodrich—different from the ordinary synthetic rubber in general use by the tire industry. It helps the new tire run cooler—wear better.

The new tire has had more than 2,000 laboratory tests. Taxicab fleets, state police departments and the B. F. Goodrich test fleet have run it 16,800,000 test miles. Not only does it give longer tread wear than prewar tires, but it has more resistance to bruising or damage from accident.

A new, slightly different shaped tread—we call it the "road level" tread—is another feature that means longer wear. Engineers had wished for

years to make a tread just slightly flatter. But that more desirable shape always set up strains in the tire body, or carcass, as it is called. B. F. Goodrich developed an entirely new, stronger carcass that stands all these strains and permits the use of the new flatter, longer-wearing tread.

The tread design is new. It is made up of hundreds of skid-resisting curves for quicker stops, surer starts—safer driving.

In a few weeks these new tires will begin to be produced in large volume, but supplies may be limited for quite a while. We have placed our order, and hope to have our shipment shortly. Watch for our announcement. And in the meantime, take good care of the tires you have—make them last until you can replace them with these new, better B. F. Goodrich Silvertowns.

Out Of Dispute Dinner At Red Cross

NEW YORK, Oct. 20.—(INS)—A state department spokesman declared today that the United States will not take sides in any differences which may develop between China and the Soviet Union.

The spokesman said that the American policy throughout the far east was outlined by John C. Vinson, chief of the state department's office of far eastern affairs, in an address before the Foreign Policy Association. His remarks on the Russo-China situation came in the course of discussing China's position in the postwar world.

Mr. Vinson said that the United States was not taking sides in the Russo-China situation, but that it was supporting the Chinese people in their struggle for freedom.

SURE THE WAR IS OVER BUT OUR JOB ISN'T DONE

The war won't be entirely over until the last American boy has come home. And that isn't going to be for a while. The shooting is over, of course, but what about those kids who are still on the job in Germany, or New Guinea, or Japan?

Actually the need for the USO increased when the guns stopped. But in addition to the need for funds for the USO, there are other relief funds and finally, our own Community Chest.

That kid overseas hasn't quit yet. Can you think of any reason why we should? He still needs your help. Give it to him in the coming days when the campaign for war relief and Community Chest Funds is on.

Mike Jacobs To Start Ballyhoo For Conn-Louis

Calls Publicity Agent And Tells Him To Get Busy With Big Fight Details

THREE MILLION GATE EXPECTED

By LAWTON CARVER
(International News Service Staff Editor)

NEW YORK, Oct. 19.—Uncle Mike Jacobs scratched that bald spot on top of his scalp upon arising this morning, glanced at the newspaper, snapped his store teeth in that peculiar staccato of his and decided everything is going to be all right.

Then he called Harry Markson, his head publicity man, and outlined promotional plans for the Joe Louis-Billy Conn heavyweight championship fight next June. They will arrange a buildup worthy of such a spectacle and if it happens to draw \$3,000,000, even better, will say Uncle Mike is the smartest promoter since Gaius Gracchus. The latter him thaved so we are told, as a wrestling promoter in the heyday of Roe's coliseum.

Pretty Fair Start

He can't recall having read a square cent on old Gracchus' gate receipts. But neither he nor a gent who came along a little later under the name of Tex Rickard ever devised the publicity gas which Uncle Mike is about to launch. Uncle Mike is going to use all the stuff originated by old Gracchus and copied by Rickard and then throw in a few frills of his own.

First Uncle Mike signs Louis. Then he meets with Conn. Then he signs Conn. That's three days of big headlines as a starter.

Meantime, he tells that he will put the match on at Philadelphia, where Dempsey fought Tunney, Chicago, Shelby, where Dempsey fought Gibbons; on the Little Big Horn, where Custer fought the Indians, or maybe Lucedale, Miss., where Claude Passeau, recently was given a banquet in recognition of his world series one-hitter. Why not Lucedale? It's already in the headlines and maybe Bilbo or Ran-

kin will make a speech in Washington help the show along.

At Yankee Stadium

Having finally announced that the fight will be held in New York's Yankee stadium, Uncle Mike then will recall that Tommy Loughran once rescued a beautiful girl from a lake at a time when publicity on one of his bouts was lagging.

There will be speculation over where the boys will train. Louis will hold out for a yacht in the Hudson river and Conn for a set-up in some remotely wooded forest where he can practice his secret punches far beyond the prying eyes of Louis' spies—the punch that will win him the title by a knockout.

Everything All Set

Then ultimately Louis will go on back to Greenwood Lake and Conn will take some other spot, with both bearing in mind the necessity of being near enough to New York to be paid frequent visits by the sporting press.

Managers of each principal will find occasion during the training to throw out of the camp and chase up the road some spy sent in to report on the activities of the opposition.

After all this is over, the fight will draw \$3,000,000 and Uncle Mike probably will wonder why he went to so much trouble. It would draw that anyhow.

New Controversy Is Developed By Ward Company

CHICAGO, Oct. 20.—(INS)—"Appropriate action" against Montgomery Ward & Co. in retaliation for the dismissal of two union employees was promised today by officials of the United Retail, Wholesale and Department Store Employees Union (CIO).

The promise came as union members awaited a reply to their second request that negotiations of a new contract with Wards open next week.

Henry B. Anderson, president of Local 20 of the URWSE, declined to enlarge on his statement that appropriate action would be taken.

Tension between the firm and its unionized workers developed shortly after the army moved out when the company announced it was discontinuing maintenance of membership and dues check-off measures installed by the army under WL3 directives.

It increased yesterday when two workers whom the army had reinstated were again dismissed.

Say Hitler Must Be Considered Dead

LONDON, Oct. 20.—(INS)—A Reuters Berlin dispatch said today that United States and British intelligence officers had informed London and Washington that "as far as it is humanly possible to obtain proof," Adolf Hitler must be considered dead.

The dispatch said intelligence authorities had marked the case of Hitler closed.

Black Markets Are Operating In Manila Now

By PAI ROBINSON
(U.S. Staff Correspondent)

MANILA, Oct. 20.—Multi-million dollar black market operations, punctuated by multiple murder and running gun battles with military police, were disclosed in Manila today.

International News Service learned exclusively that at least four M. P.'s have been slain in the past month in gun battles with American truck drivers.

An undisciplined number of drivers, surprised in the hijacking of trucks, loads of military supplies have been killed or wounded.

Prime mover in the vast and bloody black market is a wealthy Chinese, who promptly pays between five and ten thousand dollars for each truckload of food, clothing and merchandise.

How Sum Involved

U. S. authorities are unable even to approximate the total amount of the loot but recovery in the past two months of stolen merchandise valued at \$455,000 is indicative of the scope of the plundering.

Known looting in Zamboanga includes the hijacking of 1,230 complete truckloads. Last month 203 full loads and 674 incomplete loads were stolen.

This is in addition to repeated and unattended looting of huge storage dumps on such a scale that many items sufficient to outfit an entire United States are readily available on the black market in Manila.

These include fountain pens, watches, radios and electrical appliances, with a \$45 price on pens typical of profits.

Meanwhile, the army is confronted with widespread but comparatively minor depredations by Filipino dock workers pilfering from cargo which is checked only by the use of crate, not by item content.

Army Dentists Were Kept Busy

Report 90 Million 800 Thousand Treated By Army Dentists During War

WASHINGTON, Oct. 20.—(INS)—The war department disclosed today that 90,800,000 "ouchs" were wrung from tough G.I.'s by the army dental corps during the war.

Major Gen. Robert H. Mills, dental division director, said that since Pearl Harbor the corps made 71,600,000 fillings, 16,500,000 extractions and 2,600,000 dentures.

Dental defects were the leading cause for rejection by the army, with eye troubles second and mental and nervous ailments third. The first three million inductees were turned down because of poor teeth, but dental requirements were lowered twice.

It was found that average dental needs for every 100 inductees were about 60 to 80 extractions and a minimum of 240 fillings.

New Serum Gives Protection From Pacific Disease

WASHINGTON, Oct. 20.—(INS)—The war department disclosed today that a little-known serum developed during the war is being shipped in ample quantities to Japan to protect American occupation troops from the dread disease—Japanese encephalitis.

Credit for development of the protection against the disease which rambles through sections of Japan during the summer and early fall went in large measure to Lt. Col. Albert B. Sobin, Cincinnati, O.

The amazing vaccine was developed as non-infective preparation of infected mouse brain tissue. Sobin aided in discovering the medical germ in 1943 when serving with the army epidemiological board.

Sobin's work was not immediately available on the number of cases of the peculiar Japanese ailment of any—among American soldiers on occupation duty. A spokesman said however that plenty of the vaccine is being shipped to protect the health of U. S. servicemen.

The disease stems from a highly fatal virus transmitted by several species of the aedes and culex mosquitoes, and could have posed a major occupational hazard but for development of the serum vaccine.

Symptoms include fever, nausea, headache, tremors and a mental dullness climaxing in coma.

U. S. Employment Service Is Headed For State Control

WASHINGTON, Oct. 20.—(INS)—The U. S. Employment Service appeared definitely headed today for state control as Congress prepared to send another blow to President Truman's postwar reconversion program.

The senate was expected to concur in the action taken by the house last night in voting to return employment offices to the states within 30 days.

Continued retention of the state employment offices under federal supervision—at least until July 1, 1947—was No. 2 on Mr. Truman's 21-point postwar program.

A sizable block of house Democrats overrode the plea of administration quarters and joined hands with Republican members in approving a bill reclaiming \$2 billion dollars in war spending authority.

NEW FURNITURE DESIGNS DON'T FIT EVERYWHERE
The present supply materials and designs of new furniture have been affected by restrictions and priorities. Unless these new types are suitable for your home, you may be wise to wait before making replacement.

The trend of the past months has been toward the modern, compact, space-saving, to fit the small houses built for workers in war industries. The pieces for people come in uniform heights and widths so they can be matched easily. Light woods are often used since they seem to fit into small spaces. Wood may be the highly figured kind obtained from stumps and crotches. Some woods, such as ash and maple are steamed to produce cubed. Plywood is used. It is lightweight yet strong and can be curved without cracking.

Due to restrictions on the making of steel springs, chairs are more than like to have a substitute. Cocon fiber was used in layers over small spring units as a substitute for cocon. Coverings of chairs and sofas were predominantly cotton. There was less variation in colors as dyes were hard to get.

Some of this new furniture comes in a knocked-down form that can be quickly assembled. In some cases, the packing crates are constructed so they can become additional pieces of furniture when unpacked. Pieces also fit together, such as nests of tables. Some pieces of furniture are designed to fit into corners.

Troubled Labor Situation Seems Some Improved

Nation Hopes For Further
Betterment During Com-
ing Week

SOME NEW STRIKES NOW THREATENED

(By International News Service)
The nation today looked
back on a week of ups and
downs in its troubled labor
situation and hoped that the
coming week would bring
promised improvements.

With the coal strike called off,
physical encounters in the Hol-
lywood movie strike at an end, the
strike of utility workers in Michi-
gan settled, and dock workers back
on the job in New York, the picture
appeared considerably better than
at the start of the week.

But meantime, new strikes and
threats arose to blotch the picture.
Electrical power plant workers in
Minnesota laid plans to walk out
Sunday night.

Trouble Brewing

Trouble appeared brewing in the
long dormant dispute between
Montgomery Ward and its CIO
union workers. The lumber strike in
the Pacific northwest was tangled
in a legal battle that dimmed hopes
for settlement of the four-weeks old
strike. In Hollywood, the screen
writers guild joined the screen ac-
tors guild in a threat to quit their
jobs unless producers reinstate strik-
ing craftsmen.

John L. Lewis has ordered 200,000
striking United Mine Workers to
return to the pits Monday, ending a
walkout over unionization of mine
foremen, and restoring the flow of
fuel to the vital steel and iron in-
dustry.

PA NEW OBSERVES

After raining steadily during part
of the football game at Taggart sta-
dium last night, the moon came out
and stayed out for the remainder
of the night.

Last night's rain gave a big im-
petus to falling leaves. Great piles
of leaves were to be seen under
most all trees around the city today.

One gardener has started already
to spade up his garden for next
spring. "Loosen the ground, and
then the bean beetles get frozen,"
he explains. "We never have any
bean beetles."

Pennsylvanians were asked to-
day by Gov. Edward Martin to ob-
serve "National Flower Week" be-
ginning October 21. "I invite the
citizens of Pennsylvania to recog-
nize National Flower Week by giv-
ing more thought to flowers and
their power to brighten our lives in
times of joy or sadness," Governor
Martin said.

Dr. Paul Shafer, a former New

of the editorial staff of The News,
is in the public eye in Brooklyn at
the present time. Dr. Shafer is

pany and recently was voted the
"Man of the Week" by the Brooklyn
Eagle. Dr. Shafer is the son of
Rev. D. P. Shafer, former pastor
of the Central Christian church,
who is now a minister in Meadville.

There is a pear tree on the prop-
erty of Rufus Bradshaw, 29 Ralph

mixed. The tree is now profuse
with blossoms, looking like an early
spring display.

By a rare coincidence the band
of the visiting school at the football
game last night, in forming the
numerals during the intermission of
the game, needed only one forma-
tion for both teams. The "NC" in
honored both the North Catholic
team of Pittsburgh and New Castle.

Police Probe Confession In Wife Murder

DENVER, Oct. 20.—(INS)—A
mid-mannered, ex-soldier, 25-year-
old Joseph Desrosiers from San
Antonio, Tex., waited calmly today
in jail as police continued investi-
gation of his alleged confession of
the bizarre slaying of his wife,
Catherine.

Also held, as a material witness,
was Miss Marie Woidell, 26, for-
merly of Atlantic City, N. J., who
reportedly was twice attacked by
Desrosiers near the spot where she
saw him shoot his wife.

Police charge Desrosiers shot and
killed his 23-year-old wife in Au-
rora, a Denver suburb, Thursday
night, out of hate for his mother-
in-law, Mrs. W. P. Stone of Denver,
whom he blamed for breaking up
his marriage with the ex-Army
nurse he met in Alaska.

"I loved Catherine, and I think
we could have worked things out if
it hadn't been for her family,"
Desrosiers was quoted as saying
after his surrender to police. "I
bought the gun to kill myself. I
wish I had. But I couldn't make
the gun work after I shot Cath-
erine."

The assault and shooting took
place in Miss Woidell's car, in
which she had agreed to take Des-
rosiers on a business trip if he would
buy the gas. She had met him just
previously in a tavern.

Power Strike In Michigan Ended

Report End Of Two-Day Strike Of
Power Supply Workers After
Conferences

LANSING, Mich., Oct. 20.—(INS)—
The two-day-old utility workers
strike, which threatened the power
supply of two million Michigan resi-
dents, was ended today after 12
hours of conferences.

Union officials, state and federal
conciliators and Gov. Harry Kelly
announced settlement of the wage
dispute. The panel announced that
the CIO utility workers union had
agreed to accept a 13-cent-an-hour
blanket wage increase, effective un-
til March 1, 1946.

Mass meetings of the 22 local
unions affected, including a total
of 2,700 workers, were scheduled
for today to ratify the agreement,
necessary before a return to work
can be effected.

Youth Is Held On Murder Charge

LORAIN, O., Oct. 20.—(INS)—A
20-year-old Baton Rouge, Ala.,
youth, Frank Haynes, was held to-
day for the Lorain county grand
jury on a first degree murder
charge.

Haynes allegedly told police he
killed a Lorain steel worker, Mi-
chael Falls, 57, on October 12 by
striking him with an automobile
crank.

The youth was apprehended in
connection with the theft of an
overcoat, but on being question-
ed by authorities, he allegedly con-
fessed the murder. He reportedly
gave robbery as the motive for the
slaying, but said he became fright-
ened and ran away, leaving \$150 in
the victim's pocket.

Two Chicago Youths Killed In Gun Battle

Three Others In Gang Cap-
tured After Clash With
Police Officers

CHICAGO, Oct. 20.—(INS)—A
brief but savage gun battle between
three policemen and a gang of five
young Chicago hoodlums left two
of the youths dead today and the
other three in custody, two of them
wounded.

Victims of the battle, in which
about 35 shots were exchanged, were
Charles DeCola, 19, and Victor Puz-
zo, 16.

Charles Sineni, 17, was wounded
twice through the back.

DeCola and Puzzo fell fatally
wounded as they stood behind sup-
porting pillars of the elevated rail-
way on the near northwest side and
fired upon members of a police
squad car.

Warns Japan Now Seething With Political Unrest

TOKYO, Oct. 20.—(INS)—Ameri-
can occupation authorities today
pondered a Japanese warning that
U. S. leaders are misinterpreting
the apparent tranquility of Japan's
domestic scene.

This warning, expressed as un-
official "advice," was voiced by Ja-
pan's foreign minister, Shigeru Yo-
shida, in a "talk" with Lt. Gen.
Richard K. Sutherland.

Sutherland, Gen. Douglas Mac-
Arthur's chief of staff, offered his
"congratulations" to Yoshida on the
quiescence of the Japanese do-
mestic scene.

To this, International News Service
learned, Yoshida replied plainly
that Sutherland misunderstood the
situation; that, actually, Japan, was
seething with political unrest.

New Cabinet Post Proposal Is Made

NEW YORK, Oct. 20.—(INS)—
War Shipping Administrator Vice-
Adm. Emory S. Land today en-
dorsed a proposed additional pres-
idential cabinet post—that of secre-
tary of transportation.

The proposal was forwarded at a
Proprietor club dinner last night by
Proprietor Basil Harris of the United
States Lines, at which Land was a
guest. The dinner concluded the
three-day American Merchant Ma-
rine conference.

Predict Battle To Restore Cuts On Excise Taxes

Effort In Senate Is Ex-
pected When Committee
Reports Tax Reduc-
tion Bill

REMOVE 12,000,000 FROM U. S. TAX ROLLS

WASHINGTON, Oct. 20.—(INS)—
Senate leaders predicted today a
floor fight to restore House excise
cuts to the five billion 629 million
dollar 1946 income tax reduction
bill reported by the Senate finance
committee.

Retention of war excise levies on
furs, jewelry, alcoholic beverages
and other items was a closely con-
tested issue in the Senate commit-
tee which reached easy agreement
on benefits to both individual and
corporate taxpayers.

Removes Twelve Million

The bill, which goes to the floor
next Wednesday or Thursday, re-
moves 12,000,000 low-income tax-
payers from the rolls, repeals the
corporation excess profits tax en-
tirely January 1, gives individuals
a new flat five per cent cut and
frees enlisted servicemen from war-
time taxes on their government pay.

Lost in the final committee action
was the objective of sticking to the
Treasury's "top" of five billion dol-
lars in overall reductions. Already
279 million dollars higher than the
House bill in savings to taxpayers,
the Senate measure was expected to
approach six billion dollars when the
effect of the veterans' and minor
corporation benefits is com-
puted.

The Senate bill provides two bil-
lion 841 million dollars in tax cuts
to corporations, two billion 648 mil-
lions to individuals and an added
140 million dollars through repeal
of the auto-boat "use" tax.

Sen. Lucas (D Ill.), a committee
member who opposed the House
program to cut excise taxes to the
1941 rates next July, said there will
"probably be an attempt to low-
some excises on the floor."

Ninety Millions Will Be Paid To Belgium By U.S.

WASHINGTON, Oct. 20.—(INS)—
The United States and Belgium
announced today conclusion of a
financial agreement to compensate
the Belgians for a 90-million dollar
excess in reverse lend-lease.

The problem was created by the
fact that Belgium supplied 90-mil-
lion dollars more in reverse lend-
lease than she received under lend-
lease from America.

This excess was due to the fact
that large contributions of domestic
goods were made available to
American troops in the drive
against Germany.

Churchill Gives England Warning

LONDON, Oct. 20.—(INS)—For-
mer Prime Minister Winston
Churchill warned England about its
future today in a brief address at
Wanstead.

"It was not without a pang," he
said, "that I found myself dis-
missed at the general election."

"I share with many people a deep
anxiety about the future and it
seems to me the next few years may
well decide our own place in the
world. It is a place once lost might
never be regained."

to change her mind.

In this case, the actress and her

PARIS, Oct. 20.—(INS)—With
French women voting for the first

(INS)—Tribute to the Boy Scouts of
the United States and other nations
for their war service was paid to-
day by Sen. William F. Knowland,
Cal., at the annual Theodore Roose-
velt Pilgrimage.

More than 3,000 Boy Scouts jour-
neyed to the grave of the former
president in the 26th observance of
the annual ceremony.

Sen. Knowland read a message
from Commander John D. Burkeley,
P-T boat hero of the Philippines, a
former scout from Hackettstown,
N. J.

Practical Value
Commander Burkeley said his
scout training was of "very practi-
cal value" in the service.

"The Boy Scout program," he
said, "is built around good citizen-
ship and good citizens are the best
weapon which we can use to win
the peace."

Sen. Knowland praised the work
of scouts in France and Belgium
during the German occupation when
they aided resistance forces.

Scoffs At Idea Atomic Bomb To Destroy Earth

WASHINGTON, Oct. 20.—(INS)—
A scientist who helped make the
atomic bombs brushed aside today
the theory that some time an atomic
explosion might touch off a "chain
reaction" that would destroy the
earth and its inhabitants.

Dr. Lytle Borst of the Oak Ridge,
Tenn., project, told International
News Service in an interview that
"the very fact that the earth exists"
is reason to believe that that could
not happen.

He said that "in the billions of
years the earth has existed, all pos-
sible kinds of chemical combina-
tions must have taken place."

The fact that none of them ever
touched off some consuming reac-
tion is reason to believe it could
not happen, he said.

Thirty-One Fighting Ships In New York

NEW YORK, Oct. 20.—(INS)—
Warships of the United States navy
continued to invade New York har-

ing men-of-war docked in the Hud-
son river.

The cruiser Boise was expected to
steam into port this afternoon fol-
lowed by the destroyers Welles,
Sigourney, Isherwood, Porter and
Gansvoort—all veterans of the Pa-
cific war.

Police estimated 100,000 persons
would visit the ships today.

"GIVE ME LAND, LOTS OF LAND"

The day they have been waiting for arrives for the crew of the mi-
itary aircraft carrier, U. S. Enterprise, and the sailors waste no time, after
the gang plank's lowered, in getting ashore. These men, along with the
crews of the nine other ships accompanying the "Big E." to New York
from the Pacific, will participate in the Navy Day ceremonies Oct. 27
in New York.

Lt. Gen. Nathan Twining, com-
mander of the 20th Air Force, led
three B-29s to Washington today
on the first Germany-to-America
non-stop flight by bomber.

The Superfortresses making the
flight carried 36 veteran air force
personnel, all eligible to discharge.

The flight originated at Guam and
Twining pioneered the western route
because of congestion at interme-
diate fields on the "redeployment"
route east.

In 20 Hours, 26 Minutes
The flight from Frankfurt-on-
Main, Germany, to Washington con-
sumed 20 hours and 26 minutes.

The hop from Guam to Karachi
and Karachi to Frankfurt, where
Twining visited U. S. army head-
quarters in the European theater,
also were non-stop.

The route flown covered a total
13,305 miles and consumed 60 hours
and 14 minutes in total flying time.
The takeoff from Guam was on
Oct. 16.

In announcing the flight, the war
department said that it along with
others in recent weeks "served to
demonstrate the aeronautical small-
ness of the world, and what can be
accomplished with today's conven-
tional bombers."

Report Rebels Prepare To Take Over Venezuela

Capital Is Seized In Bloody
Street Fighting—Esti-
mate 400 Are Killed

FURTHER BATTLE IS ANTICIPATED

CARACAS, Venezuela, Oct. 20.—(INS)—Revolution-
nists reportedly led by the
son of former dictator Juan
Gomez prepared to take over
the government today after
seizing the capital city in
bloody street fighting that
cost an estimated 400 lives.

Despite reports the entire Vene-
zuelan cabinet had been captured,
International News Service learned
on excellent authority that Presi-
dent Isaias Medina Y Angarita and
several of his ministers took refuge
in the American embassy.

The revolutionists, including many
young army officers, headed by
Rafael Gomez, captured Caracas
police headquarters, the presidential
palace and the capital garrison with
the announced intention of estab-
lishing "real democracy" in Vene-
zuela. The revolt flared suddenly
Thursday.

To Seize Country
Insurgent forces, apparently pre-
paring to seize the entire country,
maneuvered shore batteries along the
coast at La Guayra, where civilians
armed themselves and attempted to
loot stores and other business es-
tablishments.

Further fighting was anticipated
between revolutionists and Loyal
National Guard forces in the Car-
acas area.

Some 20,000 civilians were upris-
ing with arms to support the uprising,
which was joined by 2,000 troops at
Maracay, 30 miles east of Caracas
and where rebels reportedly seized
the radio station.

Prominent Venezuelans said to
have been captured by the rebels
included the army chief of staff, the

Some Fear Revolts South Of Border May Now Spread

WASHINGTON, Oct. 20.—(INS)—
Some Latin-American diplomatic
experts today anticipated that the
spark of revolution set off in Vene-
zuela might be the forerunner of
other disturbances south of the bor-
der.

Little official information was
available in Washington on the
exact details or the motivating prin-
ciples back of the Venezuelan revolt.

One expert, recently returned from
that country expressed the belief
that it was move of the military to
control the country, which had no
civilian president until most recent
years.

His opinion was that similar move-
ments would spring up throughout
Latin-America. But this view was
not unanimous.

As is the case in most of the rest
of the world, the Latin-American
political convulsions, if they occur,
will be traced to the war's end. Some
cynical observers might compare
it to the return of normal politics
in the United States.

YOUNG WOMAN PILOT KILLED

MORRISVILLE, Pa., Oct. 20.—
(INS)—A young woman pilot was
killed and her husband, a Merchant
Marine lieutenant, was seriously in-

approach for a land- when the

crashed, witnesses said. Her hus-
band, Lt. James F. Russo, suffered
a fractured skull and internal in-
juries.

Big Change Seen By Sgt. Hulina

Bessemer Marine Gives Reflections After Release From Long Captivity In Japan

Sgt. Milton F. Hulina, recently released from the United States Marine Corps, has returned to his home in Bessemer after being held for three and one-half years as a prisoner of war in Japan.

Speaking of his long captivity, and of his feelings on being liberated, Sgt. Hulina said today:

"After having spent approximately three and a half years in a Japanese prison camp ever since the capitulation of Corregidor in the Philippine Islands the least I can say is that it's great to be alive. The world has changed so much that it seems as though I am living in a typical Buck Rogers world. However with the help of my family and my friends I don't believe it shall be too difficult to rehabilitate myself and make the necessary adjustments in order that I can enjoy life once again.

"I was serving with the Fourth U. S. Marines in Shanghai, China, shortly before the war. Four days prior to the war I arrived on Olongapo, Philippine Islands on the ship S. S. President Harrison. There our regiment joined the fighting forces of General MacArthur and were assigned the duty of defending the island fortress of Corregidor at the entrance of Manila Bay. It was indeed a struggle because of the overwhelming odds we were forced to encounter. It has been mentioned on several occasions that it was a difficult job well done. I am sure that I speak not only for myself, but for thousands of my fellowmen both living and dead when I say 'We were all proud to have the opportunity of serving our country in time of need and to be governed by one of the most outstanding generals of this era, General Douglas MacArthur and his most capable and tolerant staff, under the direct direction of General Wainwright.'

"Corregidor was a literal target for the Japanese, and the area that our small forces were concentrated on made it easy for the Japanese to concentrate a large volume of fire and bombing at all times because of their early established airfields on the island of Luzon, adjacent to Corregidor. It is needless to say that all of us who were taken prisoners of war at such an early stage of the war have suffered a great deal of privation, hunger and starvation. But what is more interesting and worthy of mention than the gruesome details of our incarceration by the Japanese are a few of the truly noble things that I have seen which make me proud of our fighting forces.

"While in Japan in Kamioke, on the island of Honshu, working for the Mitsui Mining Company, lead mines, my life was saved several times by Captain Ginsberg of New Castle, Pa., a resident of 328 E. Moody avenue, son of Samuel Ginsberg. With nothing to work with but several bottles of mild antiseptic, curtains for bandages, and a few pills, Doctor Ginsberg (captain U. S. Army) taught many of us the real meanings of perseverance and tolerance and under most trying conditions was truly a credit to the medical profession. I owe my life to Doctor Ginsberg. I feel proud to say that I know a truly great gentleman and officer."

New Strike Threatens
As the wage dispute threatened to send 1,600 AFL workers out at the Northern States Power Co., in Minnesota, Sunday night, arrangements were made to provide emergency service. While Gov. Harry Kelly announced settlement of the issue, the 2,700 workers will not return until they have ratified the terms.

Departure of the army from properties of Montgomery Ward in Chicago this week was the signal for the company to end measures set up by the army WLB directives. 2. Drop twelve million low-bracket taxpayers from the rolls entirely next year by applying surtax personal exemptions on the normal tax, cutting surtax rates by three points, and then giving the flat five per cent cut on the computed individual tax.

3. Forgive enlisted servicemen all tax on service pay for the "war period" and drop the requirement for them to file income tax returns; set up a three-year deferred tax payment plan for officers' service income and for accumulated taxes on servicemen's civilian income prior to 1942.

4. Repeal the auto and boat "use" tax effective January 1.

5. Continue for another year the House-approved "freeze" of social security payroll taxes.

Coast Guard Spar Band Here On Saturday Night

There was a time in the history of the armed forces that the suggestion of a woman's band as a part of the service would have been brushed off like a horsefly in a rushing stable. How times have changed. During the war the Coast Guard Spar Band was one of the crack musical units of the services and it is presently touring the east and west in honor of the United States in behalf of the Victory Loan.

The band will be in the Cathedral Saturday night November 3 with a program of symphonic extracts, light opera and popular arrangements of the lighter classics. The band is under direction of Spar Lieutenant (jg) Martha Redick.

Tickets for the Spar band concert are available exclusively through the Youngstown Loan campaign. Each bond salesman has band tickets and each bond holder is entitled to a ticket for his bond.

In addition to playing in New Castle the Spar band will appear in Bessemer in the afternoon. The New Castle concert is at eight o'clock Saturday night.

Presumption of Death Made Since Local Airman Has Not Been Heard From For 20 Months

Mr. and Mrs. James J. Flynn of 8 East Edison avenue have received official word from the war department, stating that their son, S-Sgt. James E. Flynn, who has been missing since February 23, 1944, is now presumed to be dead.

S-Sgt. Flynn has been missing since his squadron, on a bombing mission to Steyr, Austria, was heavily attacked by German fighters and many of the bombers were shot down. Four of the crew of his bomber, including S-Sgt. Flynn, were lost.

Letter Of Explanation

The letter of explanation, just received by Mr. and Mrs. Flynn, reads as follows: "Since no actual facts pertaining to him are definitely known, your son's case was received and continued as missing in action up to this date. The law provides that a subsequent review shall be made whenever warranted. Upon such subsequent review, the making of a finding of death is authorized."

"All available records and reports concerning the absence of your son have been carefully investigated and are deemed to warrant a subsequent review of his case. Information in the hands of the war department indicated your son was a member of a B-24 bomber crew, which failed to return from a bombing mission to Steyr, Austria, on February 23, 1944. Over Wels, Austria, the formation was attacked by a large number of enemy fighter planes, and your son's aircraft was forced down because of damage sustained in the engagement. He was last seen in the plane, apparently uninjured."

"Since no information has been received which would support a presumption of his continued survival, the war department must now terminate your son's absence by a presumptive finding of death. Accordingly an official finding of death has been recorded. This finding does not establish an actual or probable date of his death. In the case of your son, this date has been set for October 13, 1945."

Was 23 Years Old
James E. Flynn was 23 years of age, having been born on May 12, 1924. He attended St. Mary's school and church, and for eight years served as altar boy there.

The graduated from New Castle high school in the class of 1940, after which he was employed at the Carnegie-Illinois tin mill and Johnson Bronze Co. Just prior to entering service, he worked at the Shelby Tube plant in Ellwood City.

Besides his parents, he was survived by two sisters, Donna Jean and Barbara Leah.

He trained at Keesler Field, Miss. Scott Field, Ill., Alamogordo, N. M., Tucson, Ariz., and Laredo, Tex. He was a radio operator and gunner.

On November 25, he flew to Italy in a B-24 bomber, where he was shot down and reported as missing on his 13th mission and had received the air medal and two oak leaf clusters.

Hunt Attendant Missing From State Hospital

ALLENTOWN, Oct. 31.—(INS)—Pennsylvania and New York state troopers intensified their search today for William H. Yost, 52, who disappeared from Allentown State hospital ward, where he was an attendant, soon after Myron Semunick, an inmate, escaped.

Dr. Harry P. Hoffman, hospital superintendent, said Yost felt he was to blame for the escape of the 14-year-old convicted sex-slayer of Mae Barrett, 9, of Vandling.

Yost, who was last seen yesterday in Allentown, was on night attendant duty in the hospital ward when Semunick dashed past him and fled through an open door.

The youth was recaptured along with Mabel Harris, 15, a Philadelphia who escaped from the hospital on Thursday. She allegedly told police she aided in Semunick's bid for freedom.

Lt. A. Cook, of the state police, said the convicted slayer would be transferred to Western Psychiatric hospital at Pittsburgh.

Man Had Brick In His Stomach For 10 Years

One man recently stated that for 10 years he felt like he had a brick in his stomach. This feeling was due to the lump of undigested food he always had inside of him. He was weak, worn out, headachy, swollen with gas and terribly constipated. Recently he started taking ERB-HELP and says the feeling like a brick in his stomach disappeared the second day. Bowels are regular now, gas and headaches are gone and he feels like a new man.

CHILD RESPONDS READILY WHEN TOLD THE TRUTH

Although everyone is familiar with the saying "honesty is the best policy", adults sometimes feel this does not always hold true in dealing with small children, points out Miss Marguerite Little, extension specialist in child care of the Pennsylvania State college.

Parents frequently are guilty of slipping away from their children when they are asleep or otherwise occupied. Some parents think it is the smart thing to do to give a child an incorrect answer to a question. Children are sometimes told that terrible things will happen to them if they certain acts or fail to comply with the adult's wishes.

These practices may bring good immediate results, but in the long run may prove detrimental to the child as well as to the relationship between him and his parents or other adults.

It is quite natural for the small child to cry when he sees his mother go away and leave him in the care of someone else. However, there are several ways to better the situation.

First, the mother may encourage other persons to take some care of the child while she is around. The child will feel more at ease if he knows the person who is staying with him. The mother can reassure the child by telling him where she is going and when she will return. For example, to say "I am going to buy some vegetables and will be back at lunch time," is a time the child can understand.

Although she looks into a tearful face, the mother should smile and wave as she leaves. The crying won't last long and when the child sees his mother return as she said she would, the next parting will be easier. Hardships are less difficult to bear when they can be faced knowing the facts.

A child readily responds to being told the truth although it may hurt. His reasoning grows logically and the foundation for having trust in people is laid. The first knocks lose much of their severity if the child can encounter them while he still is in the security of the family.

Major Units Of Japanese Fleet Will Be Scuttled

WASHINGTON, Nov. 1.—(INS)—Secretary of State James F. Byrnes announced today that the Big Four—The United States, Russia, Britain and China—have agreed to scuttle the major Japanese fleet units.

All Japanese larger than destroyers, and all submarines, are to be sent to the bottom in any way the United States desires, the secretary revealed.

Byrnes said destroyers and lesser vessels other than submarines will be equally apportioned among the powers.

Byrnes said he did not have exact information on the number of major Japanese vessels held by the Navy but that he understood they included:

Remnants Of Fleet
One battleship.
Four aircraft carriers (one damaged).

Four cruisers (three damaged).
Thirty-eight destroyers.
Fifty-one submarines.

Since the scuttled ships are to be disposed of by the United States, the way will be open for a test of the atomic bomb on surface forces, Byrnes indicated.

He said that at the time of the surrender, Japan also had a number of coast defense vessels of eight or nine hundred tons.

No agreement has been reached on the disposition of Japanese merchant shipping, Byrnes explained, because of its being needed to transport Japanese soldiers to the main islands and in the movement of Allied troops to Pacific islands.

Not very many of these are left, he commented.

No similar action has been taken relative to the German fleet, Byrnes told questioners at his news conference. This problem must await certain happenings which haven't taken place, he explained enigmatically.

Like-wise, Byrnes said, the Italian fleet is involved in the Italian peace treaty and nothing has been done about its disposition.

Secretary Byrnes Defends Hull In Pearl Harbor Case

WASHINGTON, Nov. 1.—(INS)—Secretary of State James F. Byrnes went back today at the Army and Navy report criticizing his old friend and predecessor, Secretary of State Cordell Hull, for his handling of the Pearl Harbor case.

Byrnes noted that the board had found Hull's appointment memorandum issued the Japanese on December 29 as "the button that started the war."

He then noted that Secretary of Navy James C. Forrestal had revealed that contradictory evidence had been found on the Japanese cruiser Nechi, which was sunk in Tokyo harbor.

Forrestal had reported, Byrnes

noted, that the board had found Hull's appointment memorandum issued the Japanese on December 29 as "the button that started the war."

Byrnes said he hoped that would dispose of any claim that Hull's memo started the war.

Private Fortune Of Jap Emperor Taken By Allies

WASHINGTON, Nov. 1.—(INS)—Ed Pauley, American representative on the war reparations commission, said today the private fortune of Emperor Hirohito will be taken by the allies along with other Japanese gold assets for use in general Japanese war reparations.

The emperor's personal fortune of approximately 100 million dollars

has already been seized by American occupation authorities to be held in trust.

Pauley conferred with President Truman prior to leaving within a few days for Tokyo. Members of his American staff will leave for Japan tomorrow where they will make a study of the whole reparations question.

He said that after they return the American commission will make recommendations to the allied members of the far eastern advisory commission.

Pauley asserted there will be no recurring reparations such as after the last war.

The plan for Japan's payment of

reparations to the allies will be similar to that worked out for Germany—that is, gold, industrial machinery, war plants and other assets will be removed bodily from Japan for redistribution among the allies in a single reparations payment.

Pauley declared.

PRaises GARDENERS
 BOSTON.—(INS)—Victory gardeners helped decisively to win the war, according to Author-Farmer Louis Bromfield. Bromfield told members of the Boston Advertising club that victory gardeners "made the difference between us having enough food and being in want" during the war days.

Urges President Given Attention To Home Problems

WASHINGTON, Nov. 1.—(INS)—Rep. Leo Allen (R) Ill., called on President Truman Wednesday to "forget" about the problems of foreign nations and confine himself to the solution of domestic issues.

Allen, opening Republican debate on a bill appropriating an additional 550 million dollars for UNRRA, assailed the Chief Executive for what he termed his failure to solve home-front reconversion problems.

"We heard his message last evening," Allen told the House, "a message that was not clear, concise, factual, in plotting the course of national interest, but filled with the hope that something somehow, somewhere will eventually happen."

He charged the government is being run by "a cracker-barrel administration playing cracker-barrel politics close to the executive department."

"For many months," he asserted, "I have patiently awaited the time when this administration would at least temporarily forget about the problems of foreign nations and confine itself to the momentous job before Congress having to do with our own domestic problems."

"How long will this administration continue to bungle?" he asked. Allen lashed out at the "confusion" in government, the lack of policy regarding reconversion and the "unjustifiable delay" in returning members of the armed forces to the United States.

More Production Only Means Of Raising Wages

PITTSBURGH, Nov. 1.—(INS)—Willard F. Rockwell, chairman of the board of directors of the Timken-Detroit Axle company and the Rockwell Manufacturing company of Pittsburgh, today saw only increased production as a means of raising wages.

Rockwell said that if wages are artificially increased, there will be no real increase in wealth and inflation will result.

Citing that the government has been taking an average of 70 per cent of all profits in the form of taxes for several years, Rockwell pointed out:

"It will be extremely disastrous to government finances if there are no business profits to tax. If there are no profits, a tax reduction from 70 to 40 per cent gives nothing to either government or producer and the loss of profits and taxes eventually will result in bankruptcy for both."

Two Local Seaman In Okinawa Typhoon

Mrs. Thelma Body, and daughter, Patricia, of R. D. 1, have received word from the former's husband, Seaman 1-c George J. Body, with Ships Repair Unit who is stationed on Okinawa.

He states that during the recent typhoon in the Pacific the men in his unit spent two days and nights in their mess hall living on K rations. There was not much protection however as they only had screen windows. They slept on wet mattresses attired in their rain gear. All their buildings were blown down excepting their new mess hall built of steel, even part of the roof of which was blown off. Fortunately no one in the unit was hurt.

Seaman Body has been in the armed forces 19 months and overseas 5 months. He is the son of Mr. and Mrs. George Body of Savannah road. Seaman 1-c Daniel R. Keely, a close friend of Seaman Body is also stationed at Okinawa, and was also in the storm. His wife, Annie, and son, Terry, reside at 928 Morton street. Daniel is the son of Mr. and Mrs. Roy D. Keely, 235 North Ray street.

G. M. William Sittler Home From Pacific

William James Sittler, Gunners Mate 2-C, son of Paul J. Sittler, of 360 Neshamock avenue, has arrived here from Boston for a 30-day furlough.

He entered the service on July 19, 1941 and served in the Philippines and throughout the Pacific theater, earning a silver star and four bronze stars for combat engagements.

He will be here until November 22 visiting relatives and friends, after which he will report back to Boston for reassignment.

T-Sgt. Harry Thacker Home From Service

T-Sgt. Harry Thacker, son of Mr. and Mrs. B. K. Thacker, of Knox avenue, has been given his honorable discharge from service, and has returned to his home here to join his wife and little daughter.

T-Sgt. Thacker has been in service for 42 months and was overseas for 12 months, where he served with the 76th Signal Company, of the 76th Division, attached to General Patton's Third Army.

He saw service in the Ardennes, Rhineland, and Central Germany campaigns.

BUMPER CROP
 GREELEY, Colo.—(INS)—A peach seed that was carelessly cast six years ago into the yard of Charles E. Phillips of Greeley, produced a crop of peaches this year. One of the 46 peaches gathered from the tree measured three and a half inches in diameter and weighed over half a pound.

Denies Secret Agreement On Atomic Bomb Use

WASHINGTON, Nov. 1.—(INS)—President Truman denied there was any secret agreement between the late President Roosevelt, former British Prime Minister Churchill

and Canadian Premier MacKenzie-King on the peacetime use of the atom bomb.

Mr. Truman said the United States, Great Britain and Canada are in equal partnership and are in equal possession of the knowledge of the manner in which the bomb was produced.

He said that Prime Minister Attlee is coming to Washington to discuss with him the single matter of the question of international policy on the atomic bomb. Mr. Truman

stated that after this policy is reached in the tripartite discussions there will be discussions with other nations.

Reminded that the London press had suggested that the discussion might be a prelude to another Big Three meeting, the president said that he could not say that was so.

NEW CARS NEEDED
 PHILADELPHIA.—(INS)—During the first five postwar years American railroads will have to step-up

production to at least 12 times the rate in the pre-war decade to provide themselves with modern equipment. Edward G. Budd, president of the Edward G. Budd Manufacturing Co. of Philadelphia, says most passenger cars on the railroads are now about 25 years old.

It is estimated that one out of every ten persons in the United States is more or less seriously handicapped by a disorder needing the attention of a psychiatrist.

Wampum High Will Have Play

The senior class of Wampum high school is staging rehearsals for the presentation of "Parents and Pig-tails", to be given on Tuesday evening, November 20, in the high school auditorium.

This amusing comedy is a portrayal of the typical American parents who refuse to acknowledge the development of their three young daughters into distinct personalities

capable of making their own decisions.

An utter state of confusion arises from an erroneous radio announcement revealing publicly the secret plans of various members of the family.

The fast-moving situations of this play are interspersed with bits of home philosophy.

Try Making Cough Syrup at Home. Quick Relief

Saves You Big Dollars. And It's So Easy! No Cooking.

No matter what you usually use for coughs due to colds, you'll be more than surprised when you make up this simple home mixture and give it a trial. You'll wonder why you never used it before. It certainly does the work in a hurry.

Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed—it's trouble-free at all. Or you can use corn syrup or liquid honey, if desired.

Get from your druggist 2 1/2 ounces of Pinex. Pour this into a pint bottle and fill up with your syrup. This makes a full pint—a family supply—and gives you about four times as much for your money. It tastes fine and never spoils. Children love it.

And for quick action, you've never seen its superior. It loosens the phlegm, soothes the irritated membranes, eases the soreness, makes breathing easier, and lets you sleep. Pinex is a special compound of proven ingredients, in concentrated form, a famous reliable soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way.
